Ranchi, Jharkhand, India | +91 9153804578 | aniketkr2104@gmail.com | linkedin.com/in/aniketkumar001

EDUCATION

Sarala Birla University, Ranchi

Bachelor's Degree | CGPA: 8.02 / 10

Aug 2023 – Present

EXPERIENCE

Machine Learning Intern — IIIT Ranchi [\[project link\]](#)

May 2026 – July 2026

Built and evaluated 5 classification algorithms ([Random Forest](#), [Logistic Regression](#), [SVM](#), [XGBoost](#), [Neural Network](#)) for [heart disease prediction](#) using machine learning; the top model, Random Forest, achieved **90.2% accuracy, 96.4% recall, and 0.959 AUC** on the test set, outperforming baseline models by up to 5 accuracy points.

- Applied [data preprocessing](#), [feature selection](#), and [hyperparameter tuning](#) to improve model accuracy and reduce false negatives in disease classification.
- Authored detailed technical reports documenting methodology, model performance, and evaluation metrics ([accuracy](#), [precision](#), [recall](#), [F1-score](#), [AUC](#)) for review by mentors and peers.
- Collaborated with mentors and peers to iteratively refine the model pipeline and validate results against baseline benchmarks.

PROJECTS

Solar Rooftop Analyzer [\[live demo\]](#)

Python, Streamlit, Pandas, REST APIs (NASA POWER, ArcGIS, Nominatim)

- Built a Streamlit web app for solar site analysis: users search an address, trace rooftop polygons on live satellite imagery, and get generation and cost-savings estimates.
- Integrated satellite mapping (Folium + ArcGIS geocoding) with polygon tracing and latitude-corrected geodesic area calculation, plus the NASA POWER API for live irradiance data with retry-with-backoff and fallback handling.
- Built a data cleaning pipeline (column normalization, invalid-area filtering, duplicate handling) so the app tolerates messy user-uploaded CSVs.

TECHNICAL SKILLS

- Languages:** Python, HTML, CSS
- Machine Learning:** Scikit-learn, XGBoost, Model Evaluation (Accuracy, Precision, Recall, F1, AUC), Feature Selection, Data Preprocessing
- Core CS:** Data Structures & Algorithms (DSA), Database Management Systems (DBMS)
- Tools & Frameworks:** Streamlit, Git & GitHub, VS Code
- Fundamentals:** Object-Oriented Programming (OOP), Version Control, Operating Systems, Computer Networks

SOFT SKILLS

Teamwork (led a team project),
Communication (presentation skills, presented findings to mentors),
Leadership (coordinated group activities),
Problem Solving (resolved technical issues during project development)
